SEA GAMES QUALIFICATION - POINT CALCULATION, JUMPING

Article 655 - THE FEI WORLD CUP™ COMPETITIONS

1. The FEI World Cup™ competitions are run according to the following formula:
Competition against the clock with one initial course, with one jump-off only against the clock. Table A mixed, Art. 238.2.2.

1.1. The formula of Art.238.2.2 is to read as follows:

Table A competition against the clock with one initial round and one jump-off against the clock. Competitors with equality of penalties for first place in the initial round jump-off against the clock. The remaining competitors are classified according to their penalties and time in the initial round.

Article 656 – FEI WORLD CUP™ POINTS

1. FEI World Cup™ Point System

1.1. Number of competitors attributed points

FEI World Cup™ points are awarded to competitors only (not competitor/horse combination) for each FEI World Cup™ competition. Points are awarded to the 16 best placed competitors.

1.2. Equality of points

Points won by competitors who are tied are added and divided equally. Fractions of 0.5 or more are rounded up; fractions of less than 0.5 are rounded down.

1.3. Competitions with less than sixteen competitors

If there are less than 16 competitors starting the initial course of a FEI World Cup™ competition, the scale of points will be reduced accordingly. Only riders who have completed the initial round will get points.

1.4. Qualifying competitions with less than 16 competitors – Outside Europe

If, outside Western Europe, an event uses a separate competition to qualify FEI World Cup™ Jumping Rules 13 Art. 656 competitors for the FEI World Cup™ competition on the same day and if the number of competitors finishing the initial round in the FEI World Cup™ competition is less than 16, the results of the previous qualifying competition are taken into account for the allocation of the remaining FEI World Cup™ points.

THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSES

The Federation Equestre International (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

FEI PRESS RELEASE - FEI WORLD JUMPING CHALLENGE

PRESS RELEASE

2011 FEI WORLD JUMPING CHALLENGE

This year, the FEI WORLD Jumping CHALLENGE is entering its 33rd year of existence. No less than 50 NFs have applied for one of the three different categories.

Originally, this Competition was created to provide less experienced jumping riders with an opportunity to compete on an International level without having to leave their own countries. This Competition also contributed to develop jumping - one of the Olympic and most popular equestrian disciplines world-wide. Many riders who have participated in the FEI World Jumping Challenge successfully competed or still compete at elite level.

The FEI World Jumping Challenge may be organised by any member NF of the FEI.

The introduction of a Category C (1 m) and the reduction of the size of the arena (65x45m) last year have proven to be successful. Therefore, no changes have been made for this 33rd edition.

The 3 categories are as follows: Category A (1.20m), Category B (1.10m) and Category C (1.00). For Categories A and B, the complete competition consists of 2 competitions of 2 rounds and for Category C, one competition of 4 rounds over different courses designed by a Course Designer appointed by the FEI. This year, Mr. Louis Konickx from the Netherlands has produced the course plans.

For a few years now, the FEI World Jumping Challenge is directly linked to the FEI Coach Education System, therefore allowing this event to not only be a classic type competition but serve as an educational purpose at the same time. (www.fei.org > Development > Coaching).

The addition of trot sections in the lowest category had a difficult start but is recognized now by coaches and riders who have a better understanding of the educational purpose linked to these trot sections.

All documents and information related to this competition are available on the FEI website: www.fei.org > Events and Series > FEI World Jumping Challenge > Downloads)
