Breeding Season 2010 – page 2

How it works

1. Mare owner enquires about breeding a mare
2. Arthayasa will email the enquiry form and the breeding contract
3. Mare owner fills up the enquiry form, signs breeding contract and pays the applicable fees (trailer cost if applicable and stallion/stud fee)
4. Mare has up to three attempts to be inseminated by the same stallion over three consecutive months if mare is stabled at Arthayasa stud station during these three months.
5. Mare is picked up by Arthayasa or the owner arranges the transport of the mare to Arthayasa.
6. Upon arrival to Arthayasa stud station the mare is checked by the veterinarian.
7. If mare is suitable for breeding she will be covered by the requested stallion at the appropriate cycle time.
8. Mare will be examined and scanned by the veterinarian again in 21-35 days
9. If mare is confirmed pregnant, the owner can collect the mare
10. If mare is confirmed NON-pregnant, the SECOND CHANCE will be provided to breed the mare without additional stallion/stud fee.
11. Mare will be examined and scanned by the veterinarian again in 21-35 days to check for pregnancy
12. If mare is confirmed pregnant, the owner can collect the mare
13. If mare is confirmed NON-pregnant, the owner has a LAST CHANCE to breed his mare at no additional cost.
14. If mare is confirmed pregnant, the owner can collect the mare
15. If mare is not pregnant after the third insemination the owner has a choice of collecting the mare or re-breeding same or a different mare at totally new stallion/stud fee.
16. Breeding Certificate confirming that the mare was covered by a certain stallion will be issued to the owner when all the fees and charges to Arthayasa and to the veterinarian are paid in full.
